ECLIPSE[®] BIGLEAF HYDRANGEA
ZONES 5-9

- Intense dark purple leaves hold their color even in sunny warm climates.
- Cranberry or amethyst-colored blooms add dramatic impact.
- Perfect as a focal point in the garden when surrounded by bright plants, or when planted with other dark-leaf plants.

FIBER OPTICS[®] BUTTONBUSH
ZONES 4-9

- North American native selection that is both deer-resistant and can thrive in wet or dry soil.
- Bright green leaves are accented by spherical white flowers in summer.
- Phenomenal wildlife benefits like nectar-filled flowers and a seed head that is eaten by waterfowl.

TIANSHAN[®] SEVEN-SON FLOWER
ZONES 5-9

- A large, deer-resistant shrub or small tree that provides superb multi-season interest.
- Fragrant, white flowers appear in late summer which are followed by red sepals.
- Great late season interest with yellow fall color and unique exfoliating bark in winter.

JADE PARADE[®] SAND CHERRY
ZONES 3-7

- Stems are covered in fragrant white blooms in spring which are irresistible to garden pollinators.
- Glossy blue-green leaves, which are accented by black cherries in late summer, turn shades of yellow, orange, and red in fall.
- Ideal low-maintenance shrub that's perfect for mass planting groundcovers.

LOTUS MOON[™] PEARLBUSH
ZONES 3-7

- Stunning white buds open to white flowers that cover the plant in April and May.
- The flowers attract early season butterflies and pollinators to the garden.
- Deer resistant, low maintenance, and perfect for areas that need a pop of early season interest.
